I. IDENTIFICATION OF DECLARANT AND RIGHTS AS A SMALL ENTITY

I hereby declare that I am

(complete either (a), (b), (c) or (d) below):

(a) Independent Inventor

☒ a below named independent inventor and that I qualify as an independent inventor as defined in 37 CFR 1.9(c) for purposes of paying reduced fees under Section 41(a) and (b) of Title 35, United States Code to the Patent and Trademark Office.

(b) Non-Inventor Supporting a Claim By Another

☐ making this verified statement to support a claim by

_____ and
for a small entity status for purposes of paying reduced fees under Section 41(a) and (b) of Title 35, United States Code and I hereby declare that I would qualify as an independent inventor as defined in 37 CFR 1.9(c) for purposes of paying reduced fees under 41(a) and (b) of Title 35, United States Code, if I had made the above identified invention.

(c) Small Business Concern

☐ the owner of the small business concern identified below:

☐ an official of the small business concern empowered to act on behalf of the concern identified below:

NAME OF CONCERN _____

ADDRESS OF CONCERN _____

_____ and

that the above identified small business concern qualifies as a small business concern as defined in 13 CFR 121.3-18, and reproduced in 37 CFR 1.9(d), for purposes of paying reduced fees under Section 41(a) and (b) of the Title 35, United States Code, in that the number of employees of the concern, including those of its affiliates, does not exceed 500

persons. For purposes of this statement, (1) the number of employees of the business concern is the average over the previous fiscal year of the concern of the persons employed on a full-time, part-time or temporary basis during each of the pay periods of the fiscal year, and (2) concerns are affiliates of each other when either, directly or indirectly, one concern controls or has the power to control the other, or a third party or parties controls or has the power to control both.

(d) Non-Profit Organization

- ☐ an official empowered to act on behalf of the nonprofit organization identified below:

SPECIFICATION**Title of the invention (Rule 5,a, PCT Regulation):****FEMININE GARMENT WITH SEXUALLY STIMULATING EFFECT****Technical sector (Rule 5,a,i, PCT Regulation):****Feminine garment, fitted with genital massaging devices****Int. Cl. 6: A 41 B 9/00****A 61 H 19/00****State of the prior art (Rule 5,a,ii, PCT Regulation):**

Various feminine lingerie garments are known, the patents of which are essentially characterized by the type of textile materials used or by the effect of adherence to the body, compression or comfort of use derived from the shape of the garment, included in Class A 41 B 9/00 of the International Classification. Some of these feminine garments serve to produce a visually erotic stimulation in the male partner, but do not produce themselves an physical erogenous stimulation in the female wearer of the garment.

Devices are also known to provide massaging of the genital organs with therapeutic, playful or erogenous purposes, but these are preponderantly items for male use, which do not form part of the garment itself, included in Class A 61 H 19/00 of the International Classification.

However, there is no background on a garment worn over the waist, buttocks or groin of the female, which upon attachment on the front or rear of the garment by a string of beads, is capable of producing an erogenous

massaging effect on the external genitalia of the female for the purpose of sexual therapy or for erotic or playful purposes.

Disclosure of the invention (Rule 5,a,iii, PCT Regulation):

5 The invention consists of a feminine garment worn over the waist, buttocks and groin of the female user, characterized by joining the front section and the rear section of the garment between the legs by attaching a perineal string formed by a lace with knots, a string with thick links or a string of
10 spherical beads fitted with one or more threads: the knots, links or beads are made of or covered with metal, mother of pearl or some other material of appropriate hardness with suitable hygienic properties and which are easy to clean, the perineal string being worn as it hangs in the front of the garment after securing the ends of the garment with a front buckle, clasp or fastening means, allowing adjustment over the body and which, in addition to
15 covering the groin and anal zone and extending over the external female genitalia, perineum and anal cleft, produces a rubbing action on the outer and inner labia and on the clitoris, as a result of walking or leg movement, thereby causing sexual stimulation in the wearer and consequent stimulation
20 of her partner, the lingerie item also performing sexually therapeutic, playful or erotic aims.

25 The said garment, characterized by the fact that it is worn over the waist, buttocks and groin of the female user and by the fact that a string of spherical beads of a material having an appropriate hardness is in contact with the groin between the legs, between the front and rear sections of the garment, which may consist of a belt, fitted with said string (Figure 1), of a thong or panty made of textile material, the front and rear sections of which are connected by the said string (Figure 2), an elastic girdle for compressing

the abdomen, fitted with said string (Figure 3), a lingerie panty that replaces the groin-covering textile part by said string of beads between the legs or of a garment called "body", sweater or pajama made of any fabric that covers the abdomen and is fitted with a string or chain of beads connecting the front and rear sections of the garment and serving to produce the previously described sexual stimulation effect.

Preferred embodiment of the invention as foreseen by the Applicant
(Rule 5,a,V, PCT Regulation)

Various forms of embodiment of this invention are specified hereunder as foreseen by the Applicant.

EXAMPLE 1

A belt made of leather, fabric or some other suitable material, fitted with a ring attached to the front clasp, which secures the end of a strong string or chain carrying separate spherical beads, each having a longitudinal orifice along its axis through which the string or chain passes, and another ring at the center of the rear section of the belt, being provided for attaching the other end of the string or chain, of a length according to garment size and designed to exert pressure between the genital labia and the buttocks of the woman, to thereby cause friction upon walking or movement of the legs, resulting in consequent sexual stimulation. The string of beads may be detachably secured by knotting onto the front end ring hanging from the clasp, in such a way as to enable the user to adjust the pressure exerted by the string, while the fastening may provide a decorative effect.

EXAMPLE 2

A bathing suit or thong made of textile material wherein the front triangular fabric portion positioned over the groin and between the legs of the wearer is

attached through a string of spherical beads extending between the buttocks to the rear part of the garment which surrounds the waist, with the same purpose of sexual stimulation as in the previous Example.

EXAMPLE 3

An abdominal compression girdle made of elastic material and provided at the front lower edge at the height of the groin with a ring into which a string of spherical beads is inserted, the other end of the string being secured to a similar ring arranged on the rear lower edge of the garment on the buttocks, for the said purpose of sexually stimulating the female wearer by friction caused from walking or from the movement of the legs.

EXAMPLE 4

A panty or lingerie underwear which, in similar fashion to the bathing suit or thong in Example 2, attaches the front textile portion covering the groin between the legs to a rear textile portion covering the buttocks by means of a string or chain of spherical beads made of a hard material capable of causing friction on the external genitalia and between the buttocks to thus stimulate the wearer sexually.

EXAMPLE 5

A body stocking, sweater or pajama-type garment, which covers the abdomen, the front and rear parts of the garment being connected over the groin, genitals and buttocks with the same perineal string of beads to provide the said sexually stimulating effect.

Form of industrial exploitation (Rule 5,a,vi, PCT regulation)

The patent proposal is suitable for industrial exploitation in the clothing industry.

PATENT CLAIMS

1. FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT, essentially characterized by the fact that a
5 garment or accessory is worn over the waist, buttocks and groin of the
female user, and consists of a part shaped in the form of a band which
surrounds the waist to form an elastic belt that can be fastened or unfastened
by means of a front buckle or clasp, fitted with a hanging ring or hook at the
10 front center of it, to which the front end of a perineal string is secured or
otherwise tied, the garment being adjustable according to size or degree of
pressure desired by the wearer, and perineal string is formed by one or more
strands, strings or chains fitted with knots or passing through the axis of
spherical beads made of or covered by metal, mother of pearl or some other
15 material having an appropriate hardness, the string of knots or beads
extending over the groin and between the legs and buttocks of the female
wearer, to become attached, at its rear end, to a ring or fastening means
provided at the rear of the garment, the string extending from the pubis area
to the anal zone and over the external female genitalia in such a way that, in
20 addition to covering the groin and external genitalia, it provides friction or
exerts pressure over the external and internal labia and clitoris, caused or
enhanced by the act of walking or movement of the legs, thus producing the
sexual stimulation of the wearer through its contact, in addition to visually
arousing her partner, the characteristics of the garment proper further
25 providing a sexually therapeutic, playful or erotic effect (Figure 1).

2. **FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT** according to the preceding Claim, a sexually
characterized by the fact that the belt is replaced by a bathing suit or thong,
the lower angle of the front triangular textile part of which is over the groin
and is attached to the rear part of the garment between the legs of the female
wearer, by the said string or chain of beads in order to provide the said
sexually stimulating effect (Figure 2).

3. **FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT** according to the first Claim, characterized by the
fact that it consists of an elastic abdomen-compressing girdle, the lower
edges of the front and rear parts of which are attached through a string or
chain of beads/spheres which extends between the legs and over the groin of
the female wearer to provide a sexually stimulating effect (Figure 3).

4. **FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT**, according to the first Claim, essentially
characterized by the fact that it consists of a body stocking, pajama or
lingerie underwear, the front part of the garment being attached to the rear
part by said string or chain of beads/spheres which extends over the groin
and between the legs and buttocks of the female wearer to provide a sexually
stimulating effect.

5. **FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT.**

SUMMARY

1. FEMALE GARMENT PROVIDING A SEXUALLY
STIMULATING EFFECT, essentially characterized by the fact that it is
worn over the waist, buttocks and groin by the female user, the garment
consisting in a part that surrounds the waist and is fitted with a ring at the
front center part thereof to which is attached or otherwise fastened the front
end of a perineal string composed of one or more strings of beads which
extend over the groin between the legs and over the buttocks of the female
wearer, the string being attached through its rear end to a fastening means on
the center of the rear part, on the user's back, to exert friction on the
external genitalia upon walking or moving the legs in order to produce a
sexually stimulating effect on the wearer, the garment further providing a
sexually therapeutic, playful or erotic effect.

ACKNOWLEDGEMENT OF REVIEW OF PAPERS AND DUTY OF CANDOR

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code Federal Regulations § 1.56.

☐ In compliance with this duty there is attached an information disclosure statement 37 CFR 1.97.

PRIORITY CLAIM

I hereby claim foreign priority benefits under Title 35, United States Code, § 119 of any foreign application(s) for patent or inventor's certificate or of any PCT international application(s) designating at least one country other than the United States of America listed below and have also identified below any foreign applications(s) for patent or inventor's certificate or any PCT international application(s) designating at least one country other than the United States of America filed by me on the same subject matter having a filing date before that of the application(s) of which priority is claimed.

(complete (d) or (e))

- (d) ☐ no such applications have been filed.
(e) ☐ such applications have been filed as follows.

NOTE: Where item (c) is entered above and the international application which designated the U.S. claimed priority check item (e), enter the details below and make the priority claim.

**EARLIEST FOREIGN APPLICATION(S), IF ANY, FILED WITHIN 12 MONTHS
(6 MONTHS FOR DESIGN(S)) PRIOR TO THIS U.S. APPLICATION**

COUNTRY	APPLICATION NUMBER	DATE OF FILING (day, month, year)	PRIORITY CLAIMED UNDER 37 USC 119
			<input type="checkbox"/> YES <input type="checkbox"/> NO
			<input type="checkbox"/> YES <input type="checkbox"/> NO
			<input type="checkbox"/> YES <input type="checkbox"/> NO
			<input type="checkbox"/> YES <input type="checkbox"/> NO
			<input type="checkbox"/> YES <input type="checkbox"/> NO

**ALL FOREIGN APPLICATION(S), IF ANY FILED MORE THAN 12 MONTHS
(6 MONTHS FOR DESIGN(S)) PRIOR TO THIS U.S. APPLICATION**

**CHECK PROPER BOX(ES) FOR ANY OF THE FOLLOWING ADDED PAGES(S)
WHICH FORM A PART OF THIS DECLARATION**

- ☐ Signature for third and subsequent joint inventors. *Number of pages added*_____
- ☐ Signature by administrator(trix), executor(trix) or legal representative for deceased or incapacitated inventor. *Number of pages added*_____
